### **Lee County Department of Social Services-Medicaid**

**Phone:** (919) 718-4690

**Located:** 530 Carthage St Sanford, NC 27330

**Service Description:** Medical Assistance (Medicaid)- This program helps families or individuals (disabled/aged) with medical bills (doctor fees, prescription drugs, hospital charges, nursing home care, etc). All programs have an income limit and some coverage programs have resource limits. If eligible, Medicaid can also cover unpaid medical bills for the three months prior to your month of application. N.C. Health Choice- Health insurance coverage for the children who do not qualify for Medicaid and whose family income is under 200% of poverty. This program requires a yearly \$50 enrollment fee for a family with 1 child or \$100 for 2 or more when the family income is over 150% of poverty. There is a small co-payment for some of the services provided by N.C. Health Choice. Community Alternative Program (CAP)- A Medicaid waiver program, which provides an alternative to nursing home placement for those eligible persons. FOR KIDS - For a child 18 and younger, eligibility is based solely on the income of the financially responsible adult the child lives with. There are different income levels based on the age of the child as shown below in the income limit chart. There is no resource evaluation in this program. (Resources include money in the bank, vehicles, cash on hand, etc.) If the child does not meet the income guidelines in this program, then an evaluation can be made in another program with lower income limits, resource limits, and a deductible. PREGNANT WOMEN - Yes. There is a Medicaid program titled Medicaid for Pregnant Women (MPW). This program is based solely on the income of the pregnant woman and the father of the unborn if in the home. There are no resource limits in this program and the income limit is shown below. These income limits, referred to as poverty level, are established by Congress each fiscal year. This coverage begins with approval of an application and continues for two months after the birth of the baby. When the baby is born and birth reported the baby gets Medicaid automatically for one year. NC HEALTH CHOICE - For the first six months of the program's existence, a child must have been uninsured for six months to be eligible. After the program has been in place for six months, children must have been uninsured for two months before they can be eligible. The purpose of the first six-month period is to make sure that the 71,000 (statewide) children with no health insurance get the first chance to get into the program. If the family income falls below the following, the family may be eligible for NC Health Choice or Medicaid.

Some allowances are made for child care costs and other work related expenses so those individuals who make slightly more than the limit should still consider coming to Social Services and discussing Medicaid and NC Health Choice.
